ORIGIN *AND* VISION

MOREL

www.morel.art

MOREL® nace en 2016 de la mano de María José Morell. Su pasión por el arte, el interiorismo y la restauración del patrimonio la llevaron a comprender que la verdadera creación no nace solo del talento, sino del respeto por los materiales, la precisión que surge de la experiencia y la emoción que habita en cada detalle.

Su vocación por los metales nobles, su sensibilidad artística y su pasión por la restauración han dado forma a un proyecto único, su estudio, ubicado en Valencia, corazón del Mediterráneo.

Hoy, MOREL® actúa a nivel internacional, colaborando con grandes firmas, estudios y espacios singulares, siempre desde una mirada exigente, cercana y profundamente humana.

MOREL® was founded in 2016 by Maria Jose Morell. Maria Jose's passion for art, interior design and restoration has shaped her belief that true creation is not only born from talent, but also from respect for materials, the precision that arises from experience, and the emotion that lives in every detail.

Her passion for precious metals, artistic sensibility, and love of restoration have led her to a unique project her company located in Valencia, the heart of the Mediterranean.

Today, MOREL® operates on the international level, collaborating with leading firms, studios, and unique spaces, always taking a meticulous, welcoming and human approach.

MOREL®

PROJECTS

MOREL

Private Residence in Salamanca District, Madrid

MOREL® Atelier

Entrance vestibule clad in hammered brass combined with natural stone. The richness of the materials and the craftsmanship bring warmth, sophistication, and a sculptural presence to the entrance space.

MOREL®

ARTISANAL CRAFTSMANSHIP Le Martelé

The Martelé is a French artisanal technique developed in the 19th century during the *Art Nouveau* movement, giving each piece a unique and irregular surface.

It is widely used in interior design for its handcrafted character, sophistication, and timeless appeal.

Applications

- Wall paneling
- Decorative doors
- Headboards and beds
- Columns and pillars
- Furniture and lighting

MOREL®

www.morel.art

We combined different finishes:

- Cast leaves
- Hammered brass wall cladding
- Brass leaves with brass mesh
- Hammered leaves

MOREL®

Dimensiones: 3000 × 4600 mm

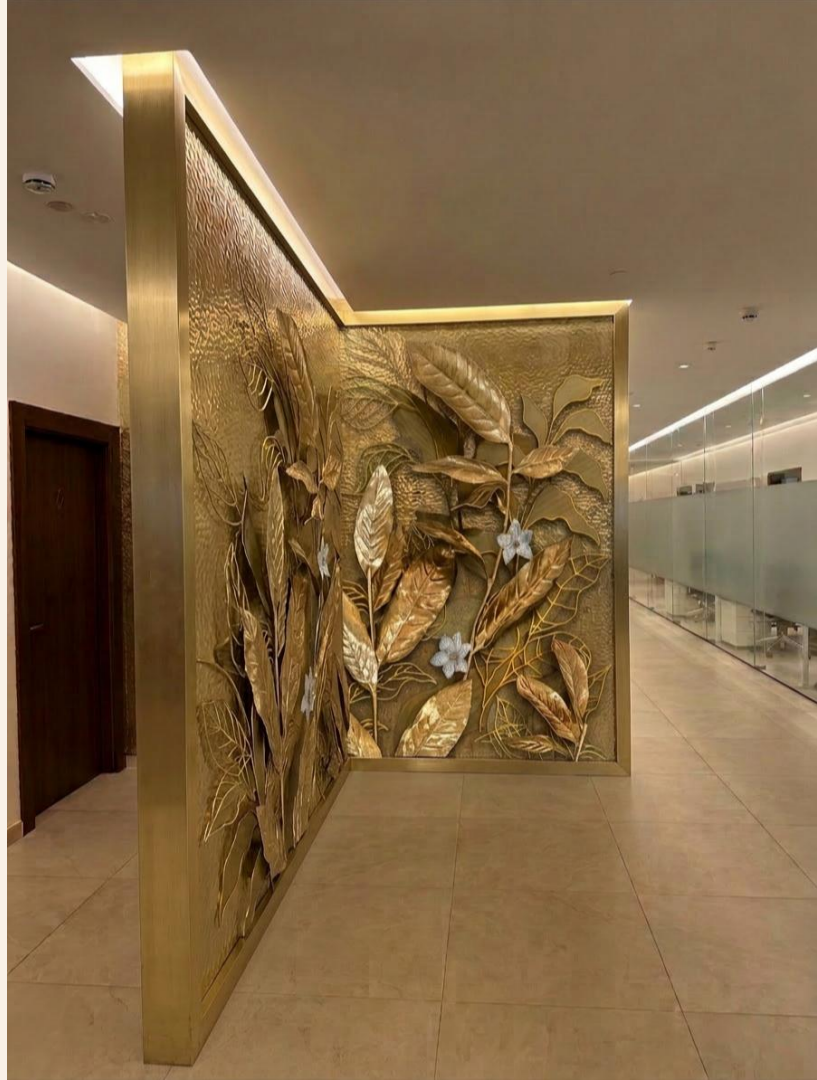

Todos los paneles traseros están realizados en latón martelé con acabado satinado, combinados con hojas en diferentes acabados para aportar una sensación de lujo y sofisticación a la clínica.

Dimensions 3000 x 4600mm

All the back panels are made of hammered brass with a satin finish, combined with leaves in different finishes to bring a sense of luxury to the clinic.
